Terminal Block Accessories

End Stops

End Stops prevent terminal blocks and other DIN Rail mount components and devices from moving laterally on the rail. They are available in polyamide 6.6 and metal configurations for 35mm, 32mm, and 15mm DIN rails. CA102 and CA202 are large endstops for heavy duty applications.

The CA103 is screwless and ergonomically snaps into place, saving costs and labor. It utilizes two precisionally mounted metal inserts that grip firmly onto the DIN rail holding any assembly into place.
