WFE P Extraction unit

Product no.: T0053638699N

Benefits

- Up to 2 FE soldering irons can be connected
- Electric vacuum pump to produce the required vacuum
- 2 power stages for higher extraction perfomance with 2 FE soldering irons
- Portable unit for stand alone applications (Not useable for 24 hours long term use)
- The motor is maintenance-free and has a thermal over load to protect the unit.
- The Weller WFE P is a line voltage fume extraction unit designed to run with one or two FE (Fume Extraction) soldering irons. The WFE P has an electric, long-life, soundproofed vacuum pump to produce the required vacuum – it does not need a compressed air supply. The vacuum pump has two power settings which can be selected by means of rocker switches depending on the number of FE soldering irons connected to the unit. This saves energy. The motor is maintenance-free and has a thermal over load to protect the unit. The filter lift system allows fast and convenient main filter replacement. FE soldering irons are connected directly to the unit – additional leads are not required. Not usable for 24 hours long term use.

Technical Data

Dimensions L x W x H (mm)	140 x 140 x 295
Dimensions L x W x H (inches)	5,51 x 5,51 x 11,61
Weight (approx.) in kg	4
Voltage	230 V AC
Power	70 W
Operating pressure in bar/psi	---
Air consumption l/min	---
Noise level (distance 1 m) dB(A)	< 45
Max. vacuum	30.000
Max. capacity	1–2 workstations
Pre-filter	Pre filter mat class F7
Compact filter	Particle filter H13 Wide band gas filter (50 % Active carbon + 50 % Chemisorb)
