BAI BaiSpot LED MR11 GU4 12V AC/DC 4.4W 2700K 36° 370lm (35W) Glass Reflector Dimmable 35x38mm LED-lamp

The so-called LED spots from the BaiSpot series are characterized by a much longer lifespan and significantly less energy consumption than their halogen predecessors. Due to the compact design, they are easily interchangeable. Spots are mainly used to provide directed light from the ceiling or wall. This glass version literally and figuratively has an extra beautiful appearance because the part through which the light shines is made entirely of glass. Ambient temperature range: -20°C to +35°C
